

K-LOVE has been serving this area for years. It is the only way we hear of the Christian events in the area. Not to mention the great uplifting music that we can get on no other radio station around here. It serves a specific purpose to a wide range of listeners that would have no other way of getting that emotional support and encouraging information shared by this radio station. It provides a unique service in that it airs music that transcends age and religion. It would be a great loss to have it was forced off the air.
